

Certificate of Compliance

« RoHS » directive 2011/65/EU Restriction of some hazardous substances of June 8, 2011 in electrical and electronic equipments ¹

Product identification: Condensate removal pumps ²

Type: EE_, TATTOO, GO_, ADAGIO_, FW_, RAPIDO, HIGH-LIFT

The RoHS directive 2011/65/EU bans Electrical and Electronical Equipments on the market, which lead (Pb), mercury (Hg), hexavalent chrome (Cr6), polybrominated biphenyls (PBBs) and polybrominated diphenylethers (PBDE) content is higher than 0.1% and which cadmium (Cd) content is higher than 0.01%.

Gotec SA has based the compliance of the RoHS directive on internal control of production ³, in accordance with its ISO 9001:2008 certified Quality processes. This means that:

- Our suppliers of raw materials and equipment meet the requirements of this Directive.
- Our ISO procedures make it possible to ensure a constant and compliant production.
- The traceability of the products is ensured at all production levels.
